

May 5, 2010

Hi Neighbors,

The spring is really flying by at the lake. April 2-3 the ice went on the lake and by April 4th loons were sighted. In addition, April 5th some blue herons waded by and on April 6th the DNR installed the launch dock.

On April 25th we met for food and conversation at the Ice Cracking Lodge. Among the topics of discussion were; the date for the annual meeting is June 27th, 2010 this is open to the public only members are allowed to vote though. It was suggested that Darrin Hoverson from the DNR be asked to speak as he is and AIS specialist. An email request has been sent to him and we are awaiting a response.

The Lake wide garage sale will be held July 1st from 8am-5pm. This is open to all of the Two Inlets Township. Contact Ruth Ann Brady at 218-732-1189 for more details.

The July 4th boat parade will line up at the launch. The start time and lead boat will be announced soon per Glen Wolters.

Our first highway pick-up will take place on May 7th weather permitting. Meet at the Goodrum's house at 9am. Bring your own work gloves vests will be provided.

Larry Sullivan stated that he will provide information about the class-action lawsuit regarding gas powered mowers purchased between January 1, 1994 and April 12, 2010 at the annual meeting June 27th.

Glen has relocated a loon nest near the Goat Island shoreline and installed two buoys in that same area. These were suggested by the Becker County boat and water safety officer to encourage safe and courteous boating practices.

The Lake map is a work in progress evolving from the 84 families to the 100+families that are currently on or around the lake.

If have changed your email address or mailing address or are unsure of your member status please contact Chris Goetzke at fishin2inlets@directv.net or go to the website www.twoinletslake.org

Happy Fishing,

Terry Goodrum
