

Presidents Report

Hello To All,

Another changing of the seasons is upon us. Although the last week of April reminds us that winter can reappear. Most of us have put away our winter tools and toys and are getting ready the instruments of summer. Lots of work but a time to cherish. Having resided where every day was the same, I have come to appreciate the changing of the season. The loons were back even before the ice was completely out. Their calls from the ice free area on the north side of the lake caused you to pause as much as the call of the geese in the fall. By the way, "ice out," was declared on April 18th. We have finally had some much needed rain (and snow) to ease the trepidation of fire. So many of our residents live on dead end roads where they could be isolated by forest fire is a worry to us all. With Easter passing the snowbirds and tourist have been returning in earnest. Welcome to all our friends and neighbors. They are easily identified by their tans and us to them by our winter ice shuffle. With spring comes the bears and their attraction to your bird feeders. Please bring in your feeders and other bird treats at night, as it will save you from the expense and joy of not having to buy replacements. There will be a large garage sale in the Two Inlets area on May 20th. Watch for the signs. Have fun and good bargain hunting to all. I read a book, "Firewood Happens," this past winter that goes a long way to help explain why we choose to live here! I would highly recommend, as it was a great read. Thanks to everyone that helped with the road cleanup on April 29. A good time was had by all at the social that followed at Clancy's. Don't work too hard, take time to savor the changing of the seasons and good luck at the Fish Opener May 13th.

Stay safe..... Glen Wolters, Lake Association President

Upcoming Events

May 13 – Fish Opener

May 14 – Mother's Day
